SGGF VII

Saskatchewan Government Growth Fund VII Ltd.

Creating economic wealth and diversification
through investment of immigrant investor capital in Saskatchewan

2009 FINANCIAL STATEMENTS

SASKATCHEWAN GOVERNMENT
GROWTH FUND

AUDITORS' REPORT

To the Shareholder of Saskatchewan Government Growth Fund VII Ltd.:

We have audited the statement of financial position of Saskatchewan Government Growth Fund VII Ltd. as at December 31, 2009, and the statements of operations and comprehensive income, deficit and accumulated other comprehensive income and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Saskatchewan Government Growth Fund VII Ltd.
Notes to Financial Statements
December 31, 2009

1. Status of the Corporation

Saskatchewan Government Growth Fund VII Ltd. ("SGGF VII" or the "Fund") was incorporated in February 1999 under *The Business Corporations Act* (Saskatchewan) and has been accepted as a government administered venture capital fund under the federal government's Immigrant Investor Program ("IIP"). Under this program, the Fund was established to raise $35,000,000 through a note offering. Each note is a variable rate (1.50% to 3.50%), unsecured, subordinated debt instrument with a principal amount of $250,000, repayable in five years provided that 70% of the proceeds are invested in eligible businesses ("Notes") throughout the five year period. The marketing period for the Fund ended on March 31, 1999, and 2004 was the last year in which the Fund accepted the completion of subscription payments.

The Confidential Offering Memorandum ("Memorandum") and the IIP prescribe various conditions which qualify an investment as an eligible business, including a requirement that the business be Saskatchewan based and have assets, including assets of associated companies, of less than $35 million.

The Government of Canada and the Government of the Province of Saskatchewan offer no guarantees or assurances on the financial performance of the Fund or of a return of an investor's original investment and neither government will be liable for any loss or damages suffered by an investor as a result of an investment in the Notes.

As described above, the Fund's purpose is to issue the Notes and make investments in accordance with the IIP. When the Notes mature, the Fund divests its investments, in due course, as appropriate opportunities arise. The investments are the Fund's only source of revenue. The Fund's activities will cease when all investments have been divested. The proceeds will be applied to the Notes. As described in note 5, it is unlikely that the Fund will be able to repay the full principal amount of Notes; however, in the event that there are residual resources from the liquidation of investments after payment of the full principal amount of the Notes, then such residual amounts will be distributed to the shareholder.

2. Significant accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles. The following are considered significant:

Saskatchewan Government Growth Fund VII Ltd.
Notes to Financial Statements (continued)
December 31, 2009

Changes to accounting standards

In June 2009, the Canadian Accounting Standards Board approved amendments to CICA Handbook Section 3862 "Financial Statements – Disclosures". The amendments require publically accountable enterprises to classify fair value measurements based on a three-level fair value hierarchy. "Level 1" financial instruments are valued using quoted prices (unadjusted) in active markets for identical assets or liabilities; "Level 2" financial instruments are valued using observable inputs other than quoted prices included in Level 1; "Level 3" financial instruments are valued using unobservable inputs for the asset or liability. The Fund has classified its cash as Level 1, and its other investments as Level 3. Disclosures related to Level 3 investments are included in note 4. Adoption of the amendments did not affect the financial results of the Fund.

Financial instruments

All financial instruments are classified as one of: (a) held-to-maturity; (b) loans and receivables; (c) held-for-trading; (d) available-for-sale; or (e) other liabilities. Financial assets and liabilities held-for-trading are measured at fair value with gains and losses recognized in net income. Financial instruments classified as held-to-maturity, loans and receivables and other liabilities are measured at amortized cost. Available-for-sale financial instruments are measured at fair value, with unrealized gains and losses recognized in comprehensive income. Accumulated other comprehensive income is reported as a separate component of shareholder's equity. Embedded derivatives are accounted for as separate financial instruments and classified in accordance with the above-noted classifications. Investment companies are exempt from these accounting policies with respect to investments and are permitted under Accounting Guideline 18 of the Canadian Institute of Chartered Accountants ("CICA") to measure and report investments at fair value.

The Fund has designated its cash and accounts receivable as held-for-trading, which is measured at fair value. Accounts payable, investor Notes and other liabilities are classified as other financial liabilities which are measured at amortized cost. The Fund has no embedded derivatives that need to be separately valued. Investments are measured and reported at their fair value.

Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may vary from the current estimates. These estimates are reviewed quarterly and adjustments are reported in the Statement of Operations and Comprehensive Income in the period in which they become known. The primary measurement uncertainty which may affect the reported amounts relates to the determination of fair values of other investments as described in the following pages.

Saskatchewan Government Growth Fund VII Ltd.
Notes to Financial Statements (continued)
December 31, 2009

Revenue recognition

Income from debt investments ("loans") is recognized as earned except if the investment is impaired. A loan is considered to be impaired if, as a result of deterioration in credit quality, there is no longer reasonable assurance of the timely collection of the full amount of principal and interest. Any loan on which contractual payments are in arrears for 90 days or more is usually assumed to be impaired. Other factors that are considered in determining whether a loan is impaired are the overall credit quality of the borrower and the fair value of the underlying security. When a loan becomes impaired, recognition of interest income ceases. Income from equity investments is recognized when received.

The change in fair value of other investments during the year is included in the Statement of Operations and Comprehensive Income. Fair values for other debt investments are determined by calculating the present value of the remaining payments under the loans. The discount rate used is based on the expected return at the date of the financial statements for a loan to an investee with similar risk characteristics. The discount rate is comprised of a base risk-free rate based on a Government of Canada bond with equivalent duration, a credit risk premium based on publicly-traded debt with a BBB credit rating, and an additional credit risk and liquidity premium based on the circumstances of the specific investee.

Fair values for other equity investments are determined by management on the basis of the expected realizable value of the investments as at the date of the financial statements if they were disposed of in an orderly manner over a reasonable period of time, discounted at a discount rate which is appropriate at the date of the financial statements to investments in similar companies. There is no active secondary market for many investments which are not publicly-traded, and there is considerable uncertainty and a potentially broad range of outcomes with respect to the future cash flows from these investments. Valuations of such investments are subject to a number of assumptions and uncertainties that may cause actual values realized on disposal to differ materially from the fair value estimated at any particular time.

Future accounting policy changes

In February, 2008 the Canadian Accounting Standards Board confirmed that publicly accountable enterprises, including the Fund, will be required to adopt International Financial Reporting Standards ("IFRS") in place of Canadian Generally Accepted Accounting Principles (GAAP) for interim and annual reporting in fiscal years beginning on or after January 1, 2011, including comparative figures. The Fund's activities will cease when all investments have been divested. If the Fund is wound up prior to 2011, no IFRS conversion will be required. It is unlikely that the Fund will be wound up prior to 2011. Accordingly, the Fund will commence an IFRS conversion project including initiating the development of a high level IFRS implementation plan and preparation of a detailed review of major differences between current Canadian GAAP and IFRS.

Saskatchewan Government Growth Fund VII Ltd.
Notes to Financial Statements (continued)
December 31, 2009

At this time the impact on the Fund's future financial position and results of operations is not reasonably determinable. However, based on the analysis to date the most significant area of difference relates to financial statement disclosures.

[redacted] Provisions of the IIP

70% investment requirement

The terms of the IIP require that at least 70% of each subscription amount be invested in eligible businesses no later than nine months from receipt of the full subscription amount. As at December 31, 2004, all full subscription amounts have been invested in eligible businesses in accordance with the terms of the IIP.

Minimum holding period and maturity of the Notes

A Note is issued to evidence receipt of the full subscription amount on the date that at least 70% of the subscription amount has been invested in eligible businesses. Each Note is scheduled to mature five years from such date, provided the Fund maintains at least 70% of the Note continuously invested in the active business operations of eligible businesses for five years following the issuance date. The IIP contains provisions which require that the maturity date of a Note be extended if, and for such period that, a minimum of 70% of the Note amount ceases to be invested in the active business operations of eligible businesses.

If the subscription amount had not been at least 70% invested in eligible businesses within nine months of receipt, then, for the period from nine months after receipt until a minimum of 70% of the subscription amount had been initially invested in eligible businesses, the investor received an additional payment as compensation for the extension of the maturity date of their Note.

4. Other investments

	2009	2008
Debt instruments, Level 3 financial instruments	**$ 775,000**	$ 1,066,715
Adjustment to fair value	-	11,279
Carrying value, Level 3 financial instruments	**$ 775,000**	$ 1,077,994

During the year, Level 3 investments changed as follows:

	2009	2008
Balance, beginning of year	**$ 1,077,994**	$ 2,768,343
Gains recognized in net income	**19,337**	44,540
Sales and repayments of investments	**(322,331)**	(1,734,889)
Balance, end of year	**$ 775,000**	$ 1,077,994

Saskatchewan Government Growth Fund VII Ltd.
Notes to Financial Statements (continued)
December 31, 2009

Debt instruments have an interest rate of 18% and are payable on demand.

5. Investor notes

Investor notes represent the Notes issued to investors of the Fund. The Notes help to satisfy a portion of investors' visa requirements under the IIP. Interest to the maturity date of Notes is accrued at an annual rate between a minimum of 1.50% and a maximum of 3.50% from the date of Note issuance. The rate is determined at the time of subscription deposit and is calculated as 3.60% less than the then current yield on a benchmark Government of Canada bond. Interest is paid annually on December 31 until maturity and at maturity. The balance at December 31 is comprised of unsecured promissory Notes with interest rates as follows:

	2009		2008	
	Number	**$**	Number	$
1.50%	**40**	**940,000**	40	1,735,000
1.70%	**1**	**23,500**	1	32,500
1.75%	**3**	**70,500**	3	97,500
1.85%	**1**	**23,500**	1	32,500
2.00%	**5**	**117,500**	5	162,500
2.05%	**8**	**188,000**	8	260,000
2.20%	**4**	**94,000**	4	130,000
2.30%	**1**	**23,500**	1	32,500
2.40%	**7**	**164,500**	7	227,500
2.45%	**2**	**47,000**	2	65,000
2.50%	**5**	**117,500**	5	162,500
2.60%	**9**	**211,500**	9	292,500
2.80%	**2**	**47,000**	2	65,000
	88	**2,068,000**	88	3,295,000

The balance is comprised of 88 unsecured promissory Notes with a remaining principal balance of $23,500 (2008 - 86 Notes with a remaining principal balance of $32,500 and 2 Notes with a face amount of $250,000).

During 2009, no maturity dates were extended in order to comply with the IIP (note 4).

The Notes are subordinate to all other liabilities of the Fund and repayment is dependent on the proceeds on liquidation of investments and other available liquidity in excess of other liabilities.

As a result of differences in the timing of proceeds from investments and scheduled maturities of Notes, beginning with the first Notes to mature in 2006, the Fund set payments on each Note at its maturity at $185,000. In 2006, this amount was increased to $195,000 with further increases in 2007 to $210,000, in 2008 to $217,500 and in 2009 to $226,500. As a result of investment losses, it is unlikely that the Fund will be able to repay the full principal

Saskatchewan Government Growth Fund VII Ltd.
Notes to Financial Statements (continued)
December 31, 2009

amount of Notes. If the assumptions underlying current forecasts prove to be correct, payment of some additional amounts may be possible in 2010.

6. Share capital

The authorized common share capital of the Fund at December 31 consists of an unlimited number of voting common shares. Holders of the common shares are entitled to receive dividends.

The issued common share capital at December 31 is:

	2009	2008
1,000 common shares	**$ 1,000**	$ 1,000

7. Financial risk management

The Fund's primary business was the raising of capital from immigrant investors and placing these funds in new and expanding Saskatchewan businesses. This investment activity entails exposure to market risk, including currency, interest rate and other pricing risks, credit risk, liquidity risk and capital risk. These risk factors may impact upon the Fund's ability to repay its Notes at maturity. These risk factors are described below.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. Currency risk is the risk that future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. While the Fund invests only in Canadian-dollar denominated investments, thereby matching the currency of its Notes, investee companies may be exposed to fluctuations in currency rates because of sales denominated in foreign currencies. Interest rate risk is the risk that the Fund's earnings will be affected by fluctuations in interest rates. Other price risk includes other factors that affect market prices, other than currency and interest risk. This may include the ability of an investee company to profitably distribute its products. Most of the companies in which the Fund invests are dependent upon a single product or industry. The Fund manages this risk through careful due diligence prior to committing funds to the investment and by diversifying its investments across various industry sectors. In general, if market risks either favourably or adversely affected the value of investments by 10%, net income and amounts available to repay Notes would not be materially affected.

Credit risk

Credit risk is the risk that a counter party will fail to discharge its obligations. Concentration of credit exposure may arise given that the Fund restricts its investments to businesses operating in Saskatchewan and therefore all investments are subject to a similar general

Saskatchewan Government Growth Fund VII Ltd.
Notes to Financial Statements (continued)
December 31, 2009

economic environment. The Fund conducts thorough due diligence prior to committing to an investment and actively monitors the financial health of its investees on an on-going basis. The maximum exposure to credit risk is equivalent to the aggregate of balances reported in the financial statements as debt instruments included within other investments.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in liquidating its investments at the time it is required to repay its Notes. Due to the nature of some of the Fund's investments, the timing of cash flows from its investments may not exactly match the payments owing under the Fund's Notes. The Fund carefully monitors the duration of its investments. However, timing differences may require the Fund to reduce or delay the payments owing on Notes at maturity. As a result of investment losses, it is unlikely that the Fund will be able to repay the full principal amount of Notes.

Capital risk and disclosure

Capital risk is the risk that the Fund will not have access to capital to finance its operations. The Fund has no sources of capital from which to draw on in the event that the proceeds of investments are insufficient to repay Notes. The Fund is not subject to externally imposed capital requirements.

Fair value – investor notes

No secondary market for the Notes exists. Due to the unique features associated with the Notes, the calculation of a fair value with appropriate reliability is impractical. The risk factors that affect the fair value of investments, as described above, also affect the fair value of investor Notes. Repayment of these Notes at maturity is dependent upon the value and liquidity of investments at that time.

8. Administration

Under the terms of a management agreement between the Fund and Saskatchewan Government Growth Fund Management Corporation ("SGGF Management Corporation"), SGGF Management Corporation administers the assets of the Fund with the assistance of a manager that performs fund administration and investment management. SGGF Management Corporation does not guarantee the financial performance of the Fund. All services provided to the Fund are charged on a fee for service basis. Effective March 31, 2009, Management Corporation was wound up into Crown Investments Corporation of Saskatchewan ("CIC") and CIC assumed the responsibilities of Management Corporation under the management agreement. Prior to April 1, 2009, all administration costs were billed by Management Corporation to the Fund. Subsequent to March 31, 2009, the Fund directly incurred its costs of administration with the exception of fees paid to the manager which are paid by CIC and reimbursed by the Fund. Administration costs incurred by the Fund, including those billed by CIC subsequent to March 31, 2009 and by SGGF Management Corporation prior to April 1, 2009 are as follows:

Saskatchewan Government Growth Fund VII Ltd.
Notes to Financial Statements (continued)
December 31, 2009

	2009	2008
Manager's fees	$ 27,360	$ 77,505
General administration	138	1,550
Directors' fees and expenses	755	1,654
Legal and professional	9,585	12,857
	$ 37,838	$ 93,566

9. Net change in non-cash balances related to operations

	2009	2008
Accounts receivable and accrued income	$ 266	$ 52,610
Accounts payable and accrued liabilities	15,472	1,588
	$ 15,738	$ 54,198

10. Income taxes

A provincial Crown corporation, CIC (prior to April 1, 2009, SGGF Management Corporation), owns all of the issued shares of the Fund. Therefore, the Fund is exempt from income taxes.

11. Related party transactions

Included in these financial statements are amounts resulting from transactions with CIC subsequent to March 31, 2009 and by SGGF Management Corporation prior to April 1, 2009 pursuant to a management agreement referred to in note 8. Routine operating transactions with related parties are recorded at agreed upon exchange amounts and settled under normal trade terms. Total fees charged to SGGF VII by CIC and SGGF Management Corporation amounted to $31,480 (2008 - $93,566). Total fees payable to CIC at December 31, 2009, and included in the above, are $2,274 (2008 - $7,156 payable to SGGF Management Corporation).

12. Comparative amounts

Certain amounts reported for 2008 have been reclassified to conform with the presentation adopted in 2009.
